“A SACS ACCREDITED DISTANCE EDUCATION SCHOOL”

School Profile:

The Ogburn School, Inc. is a private AdvancEd/SACS accredited school located in Fernandina Beach, Florida. In 2009 The Ogburn School moved into permanent headquarters at 1411 S. 14th St Unit H. This move demonstrates the commitment we have towards our students who desire an alternative approach to a non-traditional learning environment.

The Ogburn School, Inc. was founded in 1997 as Ogburn Home School Systems, a correspondence school for students seeking an educational alternative. The school achieved CITA SACS accreditation in 2005, one of the first distance education schools in Florida to achieve this status. Ogburn Home Schools incorporated in 2005 as Ogburn Home Schools, Inc. To better define our mission and purpose, in 2007, the corporate name was changed in 2007 to The Ogburn School, Inc. The Ogburn School serves grades 8-12, with grades K-7 students admitted under special circumstances. Students have several options to their education, including distance learning or attendance based programs. Students enrolled in McKay scholarships must enroll in the attendance based program. All core courses are NCAA approved.

The student body is comprised of students with diverse educational needs. There are those whose parents provide an outstanding home schooling environment who wish to continue that process with a program that provides an engaging outcome based curriculum. Others are unsatisfied with the educational options in their geographic area. Still others may have exhausted public school options but are motivated to complete their education and pursue postsecondary education or training. The Ogburn School serves these students throughout the world.

Graduates of The Ogburn School may continue their education at postsecondary level through public or private colleges or join the military. Graduates may also use their diploma to increase their credentials in the workplace, and others have earned their diploma for personal satisfaction. Since 2000, students have earned credits for transfer to their base school to assist in placing students in the appropriate grade level. Florida Virtual School has also approved an articulation agreement for students who wish to take courses online and transfer credits to our program. The Ogburn School is proud of the working relationship we have developed with other educational institutions.

- Our academic process is comprised of four components;
- Diagnostic assessment - determines readiness
 - Prescription - created and differentiated for each individual student
 - Instruction – students work at their unique individual pace
 - Evaluation - students are assessed on an ongoing basis

Using this four step process consistently, students achieve proficiency in essential skills. The Ogburn School strives for excellence in meeting the individual needs of our students.

Mission

The mission of The Ogburn School is to provide quality education to students seeking a non-traditional approach to learning, providing a challenging curriculum that engages students from primary through secondary instruction.

Vision

The Ogburn School will be recognized as a leader in providing innovative instruction in hybrid and distance learning, allowing flexibility for students to grow academically and personally in a unique educational environment that encourages individuality while promoting academic rigor.

Statement of Values

At The Ogburn School we value:

Creative educational options unique to each individual that foster quality instruction and functional learning.
Educational preparation that leads to postsecondary education or gainful employment.

Your Questions Answered...

How do I start?

Fill out the enrollment application and send it back to us with your down payment or tuition paid in full. Please complete it accurately so we will know which materials to send to you. Please contact your last educational institution to have your official transcripts sent to us as soon as possible. You will be contacted within 5 business days.

Is there a comprehensive program exam?

No. Our program is based on your completion of a portfolio of assignments. Your grades are based on the quality of work that you send to us. Grades for work experience are based on the evaluation that your employer provides to us, either on our form or on the employer's letterhead.

If I return to a traditional classroom in a local high school, will I be able to transfer these courses?

Our school is an accredited SACS distance education school, which is an internationally recognized accrediting agency. Each school has its own policies about course transfer. The Ogburn School, Inc. follows the State of Florida course numbering system, curriculum frameworks and performance standards. Therefore, our courses correspond in both description and number, making it easier for public and private institutions to determine which courses will transfer.

Is The Ogburn School diploma a GED?

No. The GED is earned by taking a series of tests administered by an authorized testing agent. Our diploma is a credit diploma granted by a private school.

How long does it take to complete the program?

This depends on how many courses you already have completed elsewhere, and how quickly you complete each course.

How will I know how much life experience I have earned?

When you return your life experience profile, we then determine how many courses you need for program completion.

How do I know how many courses I have to transfer?

When your transcript is returned to us, we evaluate which courses will transfer into your program. It is our policy to transfer courses that coordinate in name, number, and/or description if the transcript is send on school letterhead and is verifiable by our advisor.

When do I receive my diploma?

Your diploma is sent as soon as you complete the course requirements and pay tuition in full. Diplomas are printed four times per year, or every quarter.

Can I go to college with your diploma?

Yes, you can apply to the college of your choice. Remember, you must pass entrance or placement exams at most colleges. Florida students who achieve a 3.0 GPA and an ACT score of 20 or an SAT score of 970 may qualify for a Bright Futures scholarship.

Can I join the military?

Our school is an accredited institution. Each branch of the military has its own requirements. You must make a certain score on the Armed Services Vocational Aptitude Battery (ASVAB) test and meet other physical requirements. Many of our graduates enter the military. Check with your local recruiter.

Will others automatically know that this is a distance education school?

Your diploma does not state that The Ogburn School is a distance education institution. However, please be aware that distance education is increasingly popular, and you are enrolled in an established alternative school that meets state requirements for operation and is regionally accredited by the Southern Association of Colleges and Schools (SACS), a division of AdvanceEd.
